

# Lions Ukraine Crisis Appeal

From the capital of Kyiv to the borders with Slovakia and Poland, Ukrainians are hiding in basements and shelters, struggling to find food and looking for ways to escape Russia's increasingly violent onslaught.

Abandoned cars lined the main roads out of the capital, broken down or out of gas. Some motorists sped west down eastbound lanes to get around heavy traffic, dodging armored vehicles and trucks hauling surface-to-air rockets toward the city. Family members said goodbye to those who stayed, unsure when they might be reunited.

Your Local-Lions Club is part of Lions International which has clubs with the same ethos as us already on the ground in Kyiv, Kharkiv, Odesa, Dnipro and more. They are able to distribute help directly where it most needed.
